

Weekly COVID update. In the last week, we have 0 known new cases. All the previously announced COVID cases have recovered, leaving us with no known active cases. We have not had a positive case associated with school since November.

Our school district follows health guidelines for the management of individuals who have been diagnosed with COVID-19. Our school district follows these guidelines to protect the safety of our students, families, and staff.

It is important to watch for COVID symptoms. Contact your child's medical provider for guidance if your child develops any of the COVID-19 symptoms. Common symptoms include fever, cough, and shortness of breath, diarrhea, abdominal pain, and loss of smell or taste.

Two things that really help slow the spread of COVID is to stay at home if feeling sick and if at school practice good social distancing policies to avoid close contacts.
