

## Shoshone Joint School District No. 312

### INSTRUCTION

2000

#### Goals

The District's educational program will seek to provide an opportunity for each child to develop to his or her maximum potential. The goals of the Shoshone School District Board of Trustees will be:

- Align goals and objectives to the mission statement of the Shoshone School District.
- The goal of the Shoshone School District is to be a district that exhibits the “Nine Characteristics of High-Performing Schools”
  - A clear and shared focus
  - High Standards and expectations for all students
  - Effective school leadership throughout the district
  - High levels of collaboration and communication
  - Curriculum, instruction and assessments aligned with state standards
  - Frequent monitoring of learning and teaching
  - Focused professional development
  - A supportive learning environment
  - High levels of family and community involvement to support learning
- To review, evaluate and implement curriculum that:
  - Follows national, state and local standards that eliminates sexual, cultural, ethnic or religious bias
- To review and evaluate personnel needs in relation to the educational programs of the Shoshone School District.
- To review and evaluate facility needs for the educational programs of the District.
- To project and establish resources that will align and prioritize instructional needs.

The Superintendent will present objectives, reports and training to the Board in reference to the above-stated goals, on a regular basis.
