

## Shoshone Joint School District No. 312

### INSTRUCTION

2307

#### Physical Activity Opportunities and Physical Education

The District recognizes that physical education is an important part of the total program of instruction and shall be provided in accordance with state laws and regulations, District policies and procedures and available staff and program support. All students in grades K-12, including students with disabilities, special healthcare needs and alternative education settings will be offered physical education. Student involvement in other activities involving physical activity (e.g., interscholastic or intramural sports) will not be substituted for meeting the physical education requirements.
